

Podcast Experts – Design Document

Design Process

This document outlines the design process used for the Podcast Experts platform, including page structure, layout decisions, and user experience considerations.

Colour Palette

Primary colours: #1E1E1E (dark), #FFFFFF (light), #007BFF (accent).

Typography

Font Family: Inter / Sans Serif. Titles bold, body text regular. Consistent spacing and readable hierarchy are used across all pages.

Project Goals

- Provide an intuitive podcast listing and expert discovery experience.
- Allow users to create profiles, podcasts, and interact via messaging.
- Create a bilingual-friendly and accessible UI.

Acceptance Criteria

- All forms must include valid error feedback.
- Navigation must be responsive.
- CRUD operations must work without errors.
- UX must be consistent across all device sizes.

Agile Structure

The project uses GitHub Issues, Milestones, MoSCoW prioritisation, and a Kanban-style Project Board for task management.
